I am a dedicated web developer who loves creating and designing UI using Reactjs and Nodejs among others technologies

PROJECTS

Real Time Chat App| VIEW SITE

`Node.js` `Express` `MongoDB` `Socket.io` `Bootstrap 4`

Allow users to chat each other at different devices. The user has to log in or create an account to use the app, that let me store every conversation in a database so the users can see it anytime.

BattleShip Game| VIEW SITE

`React.js` `Bootstrap 5`

The traditional BattleShip game created using React.js. It takes advantages of React Hooks to create pure functions as well as other performances enhancers.

Weather App| VIEW SITE

`Javascript` `HTML5` `CSS`

WeatherApp allows users to enter a city name and receive current weather data using the OpenWeatherMap API . Optionally, a user may provide their location using the Geolocation API location by clicking on the location icon next to the input.

Hero-Shop| VIEW SITE

`React.js` `React-router` `CSS`

The Hero-Shop is a false shopping cart website that allows users to buy heroes cards and navigate between pages with the use of React-router. This app is fully responsive.

SKILLS

- React.js
- Node.js
- Express
- Socket.io
- MongoDB
- Svelte
- Javascript
- HTML5
- CSS-SASS
- Bootstrap 5

EDUCATION

Javascript Certification | Odin Project   2020-current

Front End Development Libraries Certification| freeCodeCamp   2020-current

Bachelor Degree| IPU Abel Santamaría Cuadrado   2015-2018
